Professional Congress Organizer

The International Conference on **Molecular Neurodegeneration** (ISMND 2022) to be held October 10-12, 2022 in Athens, Greece, will offer a series of invited talks by well-renowned speakers to discuss Glial and Vascular Contributions to Neurodegenerative Diseases. The combination of invited talks with abstract-selected short talks and poster presentations will provide excellent opportunities for productive discussions, networking, and collaboration to further our understanding on the genetic, cell and molecular processes responsible for the most common neurodegenerative disorders.
